On your screen you will be given a display of your current sector of the galaxy and the stars in that sector. You may fire off laser probes to determine the location of Zorph warships. You have a number of weapons at your disposal including quantum rays, antimatter missiles and, for desperate situations, doomsday torpedoes. Your ship is protected by shields against any attack, but you must be careful to maintain your energy supply. Any Zorphs in your sector will attack you and each attack will use up some of your reserve energy. If your energy is depleted, your shields fail and the next Zorph attack destroys you. You can replenish your energy reserve by returning to a friendly base. You can hop sectors using hyperspace, al.. Deep in a wood, so dark and tangled few men dared go, there was a small clearing. And in that. It was late when I finally got home. All evening I'd dreaded having to face Debbie with the bad news.. I mean think I am drunk;. they would miss it when it was gone. So the day of departure was a stiff, determinedly nonchalant affair.. Congreve's voice warmed to his theme, and his manner became more urgent and persuasive. "Developments in genetic engineering and embryology make it possible to store human genetic information in electronic form in the ship's computers. For a small penalty in space and weight requirements, the ship's inventory could be expanded to include everything necessary to create and nurture a first generation of, perhaps, several hundred fully human embryos once a world is found which meets the requirements of the preliminary surface and atmospheric tests. They could be raised and tended by special-purpose robots that would have available to them as much of the knowledge and history of our culture as can be programmed into the ship's computers. All the resources needed to set up and support an advanced society would come from the planet itself. Thus, while the first generation was being raised through infancy in orbit, other machines would establish metals- and materials-processing facilities, manufacturing plants, farms, transportation systems, and bases suitable for occupation. Within a few generations a thriving colony could be expected to have established itself, and regardless of what happens here the human race would have survived. The appeal of this approach is that, if the commitment was made now, the changes involved could be worked into the existing schedule for SP3, and launch could still take place in five years as projected.' and unclasping his fingers on the arm of the couch..
